Topricin®, a homeopathic topical cream to relieve pain and to reduce inflammation

It may not be glamorous but this new homeopathic topical cream (Topricin®) is a must have addition for anyone on the go. Topricin® works wonders to keep you going and enjoying your trip without resorting to dangerous over-the-counter pain relievers.

Topricin® is the culmination of many years of research in the area of regulated natural medicines. The result is a patented topical biomedicine technology that incorporates a combination of homeopathic medicines that work synergistically to relieve pain and to reduce inflammation in joint and soft tissues (nerves, muscles, tendons, etc.). Topricin® aids in the healing process by improving blood flow to injured tissue and by draining toxins and fluids that build up as a result of injury or ailments, like osteoarthritis. By doing so, Topricin® goes beyond merely relieving symptoms but instead stimulates the body's ability to heal the damage that is causing the pain.

Topricin's 11 homeopathic medicines are proven to be safe and effective for the elderly, children, pregnant women and all skin types. Experience Topricin's relief for damaged muscle, tendon, ligament and nerve tissue.
